

Bunnytales!

Catalogue of Cards!

Welcome to bunnytales catalogue of **handmade** cards! Our **3D designs** are inspired by our own lovely house bunnies! Personally I have a lot of trouble finding bunny-themed cards so we decided to design our own! All the designs are created using original hand drawn illustrations!

The cards all contain 3D elements, and we produce most of these ourselves too! To make the cards truly unique, we colour the cards by hand including most of our 3D cut-outs! All of the cutting and sticking is also done by hand! With these cards you are getting you own mini bunny work of art and card in one!

The following shows the designs currently available. The order reference for each card is shown under the relevant image. Please remember designs and colours may vary slightly from those shown, as **each is individually created**.

The size of each standard card is 10.2 x 15.2 cm (4 x 6 inches). The cards are left blank inside for your own greeting!

Standard size cards are priced at £2 each +P&P (for P&P prices see our order form)

We now have **4 new Christmas cards** available, including 2 larger size cards (5 x 7 inches) for £2.75 each!
